

Applications for KLEIBER Series 340

1. Low temperature device KT 340/ 342

- Plastics industry
- Paper industry
- Packaging industry
- Glass industry
- Ceramic industry
- Mechanical engineering and plant construction
- Furnace industry
- Chemical industry
- Footwear industry
- Food industry
- Research and development

2. High temperature device KS/ KGA 342

- Steel industry (forging and annealing)
- Furnace industry
- Soldering applications
- Ceramic industry
- Research and development
- Special applications
